The sooner we get pictures out, the sooner we can line up adoptive homes. Are you able/willing to take, and send us cute pictures of your foster kitty each week so we can update posts to advertise for adoptive homes?	

We do not have a shelter location. Potential adopters will come to your home to meet the kittens after we have reviewed and approved their application to adopt.

After the meeting we will want your opinion of how the meeting went, and your thoughts on the potential adopter. Your opinion is very important to us.

Please add Cindy Kasprick and Jennifer Brianne as friends on Facebook so we can add you to our Volunteer Page.

Please note items below:

1. If for some reason it is necessary to stop fostering, we need 3 weeks notice for us to find another good foster like you.
2. Foster kitties must be indoor kitties. (even if they think otherwise)
3. Foster kittens must remain in a separate room from all other cats for one week to ensure they are healthy.
4. A pregnant mom cat would need a bedroom away from any other pets once her kittens arrive. Moms with a litter would also need a closed bedroom. (However a person could certainly share the bedroom with them.)
5. While you have our foster kittens in your care, we ask that you do not accept fosters from other rescues into your home, for health safety. This is important to our rescue as we do not want to risk any unknown illnesses being transmitted.
